GAEL ZARCO

Full-Stack Engineer

I am a Full-Stack Engineer from Las Vegas, Nevada with 3 years of education & experience in software. I have had the opportunity to work with start-ups, participate in hackathons, and develop a firm grasp of web engineering and cloud infrastructure. I am seeking an entry-level position as a Full-Stack engineer.

WORK EXPERIENCE

Software Engineer Intern   May 2023 - Now

Productos-AI, Remote (Part-Time)

- Integrate GPT-3-powered AI chatbot for clients that use WhatsApp in Latin America .
- Participate in Agile methodology and contribute to daily team meetings.
- Maintain and communicate with AWS infrastructure such as Lambda, CodeCommit, DynamoDB, and S3.
- Write up-to-date documentation for product features, serverless functions, and other APIs.

Android Application Developer   Feb 2023 - July 2023

Decoding Greatness Inc, Remote (Part-Time)

- Self-taught mobile development while working as a pair of two to build initial application infrastructure.
- Collaborate closely with team members and business owners to plan and implement roadmap features.
- Served as cross-functional team to design and integrate UI elements that provide an excellent user experience.
- Maintained consistent communication and agenda with IOS development team and non-technical contributors.

PROFESSIONAL DEVELOPMENT

Team Lead | Full-Stack Engineer   Feb 2023 - Mar 2023

LabLabAI - OpenAI Stack Hackathon ✧ Briefo

- Implemented file conversion feature, website deployment, and connection between client and sever.
- Delivered 5-minute presentation speech that garnered overwhelmingly positive feedback from judges.
