GAEL ZARCO

Full-Stack Engineer

A bi-lingual restaurant professional turned software engineer from Las Vegas. With 3+ years of education & experience in software, I have had the opportunity to work with start-ups, participate in hackathons, and develop a strong grasp of web engineering and cloud infrastructure. I am seeking an entry-level position as a full-stack engineer.

WORK EXPERIENCE

Software Engineer   May 2023 - Now

Productos-AI, Remote (Part-Time | Intern)

- Participate in Agile methodology and contribute to daily team meetings.
- Maintain and communicate with AWS infrastructure such as Lambda, CodeCommit, DynamoDB, and S3.
- Integrate roadmap features and work alongside developers from around the world.
- Write and stay up-to-date on documentation for product features.

Android Application Developer   Feb 2023 - Now

Decoding Greatness Inc, Remote (Part-Time | Contract)

- Undertaking the entirety of Android app development as a team of two utilizing Kotlin and Firebase.
- Self-teaching mobile development while building application infrastructure and features.
- Collaborating closely with team members and business owners to plan, design, and implement desired functionalities.

PROFESSIONAL DEVELOPMENT

TEAM LEAD | Full-Stack Engineer   Feb 2023 - Mar 2023

LabLabAI, OpenAI Stack Hackathon ✧ Briefo

- Implemented file conversion feature, website deployment, and connection between client and sever.
- Delivered 5-minute presentation speech that garnered overwhelmingly positive feedback from judges.
